KEEPING YOUR EYES HEALTHY AND SAFE

Karono Science & Technology (Shenzhen) Co.,Ltd. is a professional enterprise specializing in the production and sale of all kinds of safety goggles. Our products are diverse, including tactical goggles, laser protective goggles, sports goggles, anti-fog goggles, UV protection goggles, etc., which can meet the needs of different industries and occasions.

Our goggles are manufactured using the most advanced technology and materials, with advantages such as protection, anti-fog, scratch resistance, and high transparency, effectively preventing the eyes from being harmed by chemicals, dust, particles, UV rays, and other hazards. Our products not only protect the user's eyes but also improve work efficiency and comfort.

Our team is composed of experienced and skilled professionals who continuously research and develop new products to meet customer needs. Our production line uses advanced equipment and processes to ensure product quality and stability. Our sales team adheres to the principle of "customer first" to provide professional consultation and service, ensuring that customers can choose the most suitable products.

Our products are widely used in construction, manufacturing, medical, laboratory, outdoor sports, and other fields, and are highly trusted and praised by customers. Our mission is to provide customers with the best protective eyewear to ensure their eyes receive the best protection. We will continue to work hard to provide customers with better products and services.

IPL SAFETY GOGGLES

IPL goggles are a high-quality eyewear designed specifically for laser hair removal, beauty, medical and other fields. Our fully opaque goggles can block all wavelengths of visible light, ensuring comprehensive protection for your eyes. At the same time, our goggles are designed for comfort, making them very comfortable to wear and not causing any discomfort. Whether you are a professional beautician or an ordinary consumer, our IPL goggles can provide you with the most comprehensive protection, allowing you to feel more at ease during the beauty process.

IPL GOGGLES FOR BEAUTY TREATMENT

IPL safety eyewear is made of silicone and a light-absorbing material, making it softer and lighter. It is highly durable and resistant to wear and tear, providing effective eye protection even with minor scratches.

The design of IPL safety goggles is ergonomic, with thickened edges and a flexible adjustment band that can be altered to fit different face sizes. They are designed to be comfortable for all face shapes and sizes, without causing any constriction on the face.

Tanning goggles are fully light-blocking and light-absorbing, with a special nano material that absorbs specific wavelengths. They are designed to block visible and invisible light, as well as ultraviolet and infrared light, without any selectivity for the light source or angle of incidence.

BEAUTY TREATMENT GOGGLES

The IPL 200nm~2000nm broad spectrum lens is designed to provide protection against a wide range of light sources, including UV, blue, red, and infrared laser light. This makes it an ideal choice for a variety of applications, such as laser hair removal, laser beauty treatments, laser welding, and laser engraving. The protective eyewear is specifically designed to block out harmful wavelengths and prevent damage to the eyes, ensuring the safety of the wearer during these procedures. With their high level of protection and versatility, these protective eyewear are an essential tool for anyone working with lasers or other high-energy light sources.

IPL GOGGLES FOR HARI REMOVAL

Wavelength: 200nm-2000nm,for intense pulsed light protection (Compatible with 694nm,755nm,800nm,1064nm,laser beauty treatment etc.),Block UV,Blue,Red and infrared pulsed laser light.OD4+,visible light transmission:15%,both protection and clear.

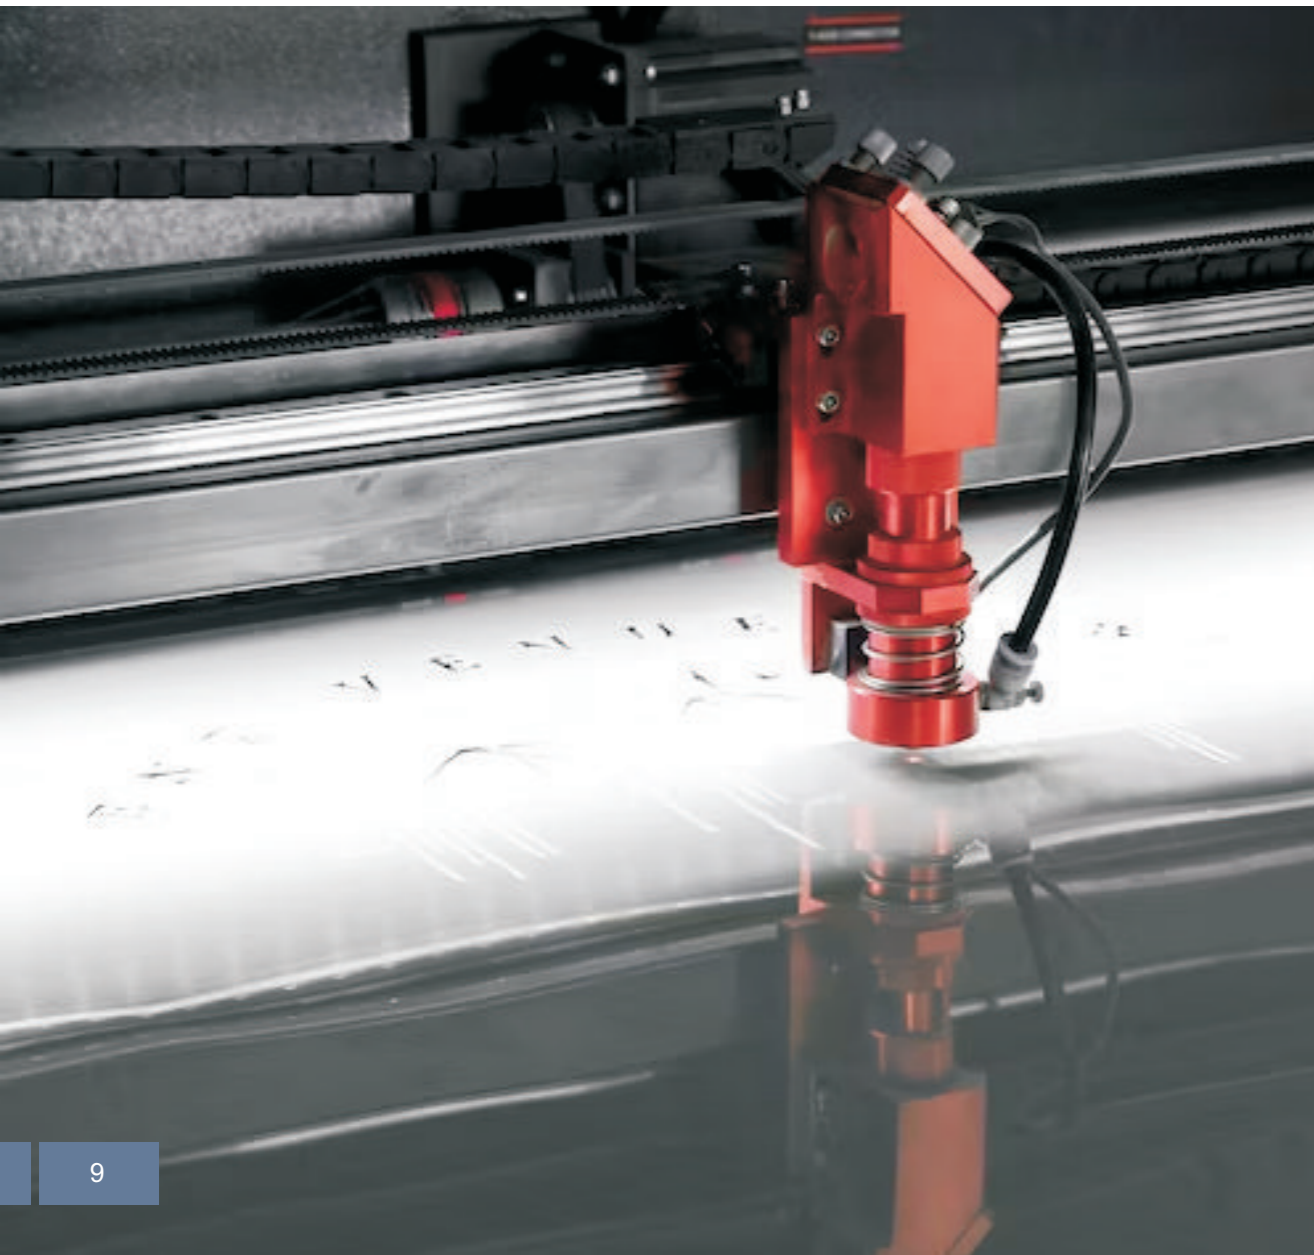

The lightweight and adjustable frame of this ipl goggles are designed to be impact resistant and durable, providing reliable protection and ensuring a comfortable and pleasant wearing experience. Allowing for long-term laser work without fatigue.

Our laser safety glasses provide protection that is approved by EN207 1998, EN166-2001, EN167-2001, EN168-2001, and GB30863 standards.

LASER SAFETY GOGGLES

CO₂ laser safety goggles are designed specifically to protect the eyes from CO₂ laser radiation. They use special materials and designs to effectively filter out CO₂ laser radiation and prevent eye damage. CO₂ lasers are high-energy lasers with a wavelength of 10.6 microns, which can penetrate the cornea and lens of the eye, causing permanent damage to the retina and even blindness. Therefore, wearing CO₂ laser protective goggles is an essential safety measure when performing CO₂ laser surgery, laser cutting, laser marking, and other operations.

CO₂ LASER CARVING GOGGLES

CO₂ laser protective goggles are made of high-quality materials and provide both protection and comfort. The lenses are made of special filter materials that can filter out CO₂ laser radiation while maintaining good light transmission, allowing you to see the work area clearly during operations.

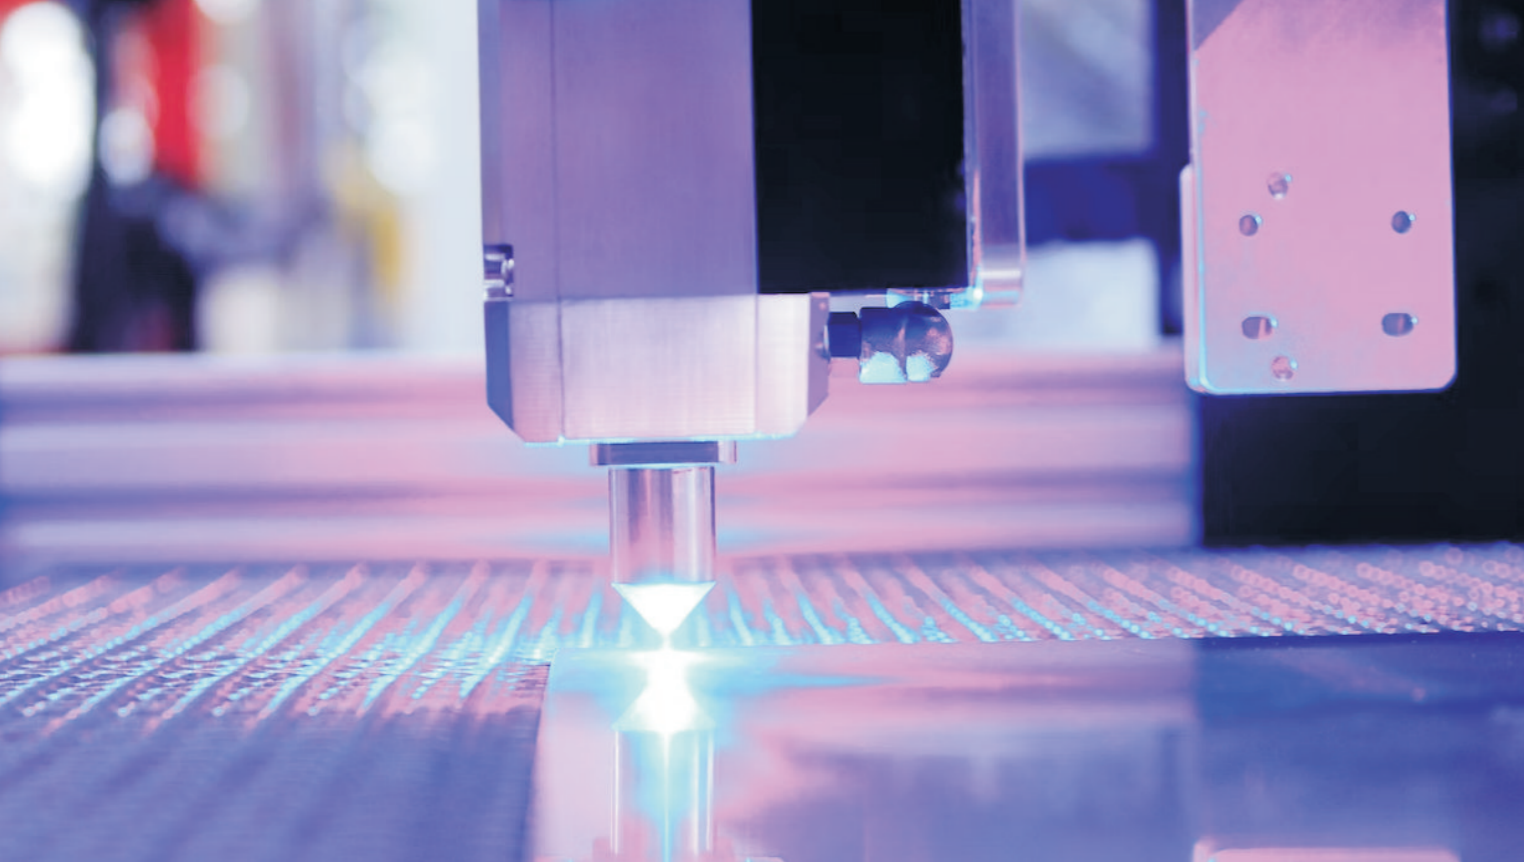

The frame of CO₂ laser protective goggles is designed to be lightweight and comfortable, so that wearing them does not create a sense of pressure and allows you to remain comfortable during long periods of operation.

Applications: CO₂ laser skin resurfacing and fractional treatments, CO₂ laser marking and cutting machines, as well as other CO₂ laser equipment.

LASER SAFETY GOGGLES

532nm laser safety goggles are a type of eyewear specifically designed to protect the eyes from 532nm laser damage. 532nm laser is a commonly used laser wavelength in fields such as laser marking and laser cutting. Prolonged exposure to 532nm laser can cause harm to the eyes, making it necessary to wear protective goggles. Whether you are working on an industrial production line or in a laboratory using 532nm laser, wearing 532nm laser protective goggles can provide comprehensive eye protection. Therefore, if you need to be exposed to 532nm laser for an extended period of time, it is recommended to wear 532nm laser protective goggles to protect your eye health.

SPECIFIC WAVELENGTH LASER SAFETY GOGGLES

Efficient filtering: our safety goggles are made of special materials that can effectively filter out 532nm laser, avoiding direct exposure to the eyes and protecting them from laser damage.

Comfortable to wear: there are designed with ergonomics in mind, making them comfortable to wear and not easily causing discomfort or pressure, allowing for long-term wear. **Good light transmission:** 532nm laser glasses have good light transmission, ensuring clear vision for the wearer during work and improving work efficiency.

Strong durability: these glasses are made of high-quality materials and have strong durability, able to withstand long-term use and multiple cleanings. **Wide range of applications:** it's suitable for laser marking, laser cutting, laser welding and other fields, providing comprehensive eye protection for workers in these industries.

TACTICAL SAFETY GOGGLES

In dangerous environments, protecting one's eyes is crucial. Tactical goggles are a high-performance eye protection equipment that can provide comprehensive eye protection for users, allowing them to work more safely and confidently in hazardous environments.

Tactical goggles are made of high-strength materials with excellent impact resistance and abrasion resistance, effectively preventing external injuries. In addition, the lenses are treated with anti-fog and have anti-UV and anti-glare functions, which can effectively reduce eye fatigue and visual interference. The design of tactical goggles is also very user-friendly, with an adjustable headband that can be adjusted according to personal needs to improve comfort and fit.

Tactical Goggles are made of durable TPU frame and 2.7mm thick polycarbonate lenses, which provide strong impact resistance and anti-fog treatment. They also have a UV Protection Coating to protect your eyes from harmful rays, ensuring clear vision in any weather conditions while keeping your eyes safe.

These Goggles come equipped with a built-in cloth cover to protect the lenses from scratches and damage. The cloth cover also absorbs sweat to keep you comfortable in even the toughest situations. The adjustable head strap ensures a secure fit for all head sizes. Whether you're in the field or on the range, these goggles are the perfect companion for any adventure.

Experience the perfect combination of functionality and comfort. Designed to be worn over prescription glasses, these goggles feature a breathable design for extended wear. Enhance your performance and stay comfortable with our Tactical Goggles. Order now and experience the difference.

TACTICAL SAFETY GOGGLES

This semi-tactical eyewear features a stylish exterior design that breaks away from the traditional and monotonous appearance of tactical eyewear. It is made of high-quality materials that provide excellent impact resistance and scratch resistance, effectively protecting your eyes from external harm. The lenses used in this eyewear are capable of effectively preventing UV rays from damaging your eyes, allowing you to feel more secure during outdoor activities. The frame is made of comfortable materials that are suitable for various face shapes, providing a comfortable wearing experience.

SEMI-TACTICAL EYEWEAR

These tactical goggles meet ANSI Z87.1-2001, MIL-PRF-324432(GL), and CE EN166 standards, ensuring they are windproof, bulletproof, sand-proof, impact-resistant, scratch-resistant, and wear-resistant.

Protect your eyes with our Airsoft Tactical Goggles, designed with a durable TPU frame and Polycarbonate lens to provide superior impact resistance. These goggles also feature advanced coating technology that prevents fogging, ensuring clear vision in challenging weather conditions.

Stay ahead in any outdoor activity with our tactical goggles and 3 interchangeable lenses (Clear, Black and Yellow). Perfect for paintball, hunting, cycling, skiing, and more. Switch lenses for clear vision in any conditions. Be fully prepared with our tactical goggles.

TACTICAL SAFETY GOGGLES

Wire mesh safety glasses, with their high-density wire mesh design, offer superior impact resistance and scratch resistance compared to regular safety glasses. They effectively isolate the eyes from accidental impacts, splashes, dust, particles, and other hazardous factors, minimizing the occurrence of potential injuries.

Wire mesh safety glasses are particularly suitable for outdoor activities such as woodworking, construction, gardening, etc., providing additional protection.

WIRE MESH SAFETY GLASSES

Designed with utmost attention to ergonomics, these glasses offer unparalleled comfort without compromising on protection. The inclusion of a soft sponge lining ensures a snug and cozy fit, making them a breeze to wear for longer durations.

Say goodbye to fog with our innovative Wire Mesh Safety Glasses! Designed for maximum clarity and airflow, these glasses keep your vision clear and comfortable, no matter the conditions. Don't let fog slow you down - choose our Wire Mesh Safety Glasses for unbeatable visibility and all-day comfort!

The iron mesh goggles feature a unique mesh structure design and are made of lightweight materials, providing excellent impact resistance while maintaining a lightweight frame.

FLAME-RESISTANT GOGGLES

We proudly present our brand new line of flame-resistant goggles, protecting your eyes from the threats of fire and high temperatures. Manufactured with professional flame-resistant materials, these goggles demonstrate excellent durability in welding, metalworking, and fire rescue scenarios. With a sturdy and durable construction, they provide comprehensive protection against splashes, dust, debris, and chemicals. Designed with ergonomics in mind, the larger frame and adjustable headband ensure comfortable wearing, even during extended periods. With stylish designs and color options to choose from, these flame-resistant goggles guarantee both safety and individuality. Whether for work or outdoor activities, they are the most reliable choice!

GOGGLES FOR FIREMEN

Our goggles are manufactured using professional flame-resistant materials, providing excellent heat resistance. Whether you're welding, working with metal, or involved in fire rescue, our goggles will reliably protect your eyes from flames and high temperatures.

The flame-resistant goggles are structurally robust and durable. They effectively prevent splashes, dust, debris, and chemical substances from harming the eyes. Whether you're working in an industrial setting, laboratory, or outdoor environment, our goggles will be your reliable companion.

The lenses of the goggles are made of high-quality materials, which can reduce light reflection and glare, ensuring a clear vision and precise work operations.

PET GOGGLES

Introducing Pet goggles, stylish and comfortable pet goggles that provide optimal eye protection. Our pet goggles block harmful UV rays, ensuring your pet's eyes stay safe from sun exposure. These lightweight and flexible goggles fit snugly on your pet's face for maximum comfort while outdoors. Choose from a variety of fashionable designs and colors that make a statement.
